

The Service

Wedding Taxi's have over 18 years experience in providing Wedding transport. All of our drivers are Qualified London Taxi Drivers who have undertaken the famous Knowledge of London test (so they know their way around London). All of the Taxi's are owner driven and are maintained to the highest possible standards and checked on a yearly basis by the Public Carriage Office. The Taxi's that we use are special in some way or another, not the normal standard Taxi's that you see working the streets of London.

The London Taxi is extremely roomy inside and can accommodate the most elaborate Wedding dress. There is room for many bridesmaids and a Gentleman wearing top hat and tails would not even have to remove his hat.

All of our Taxi's come decorated with ribbons and flowers and are clean inside and out (weather permitting).

Other Services

For a small extra charge we offer a champagne service. The Bride and Groom can sip champagne on the way from the Wedding Venue to the reception whilst enjoying the scenery.

Night Time Pick ups

We also offer a night time pick up service where we pick up the bride and groom from the reception and transport them to a Hotel, Airport, Seaport or their home.

Honeymoon Transfer

We can also transport the happy couple to any destination in the UK, whether it be an airport, harbour or hotel either on the night of the Wedding or the following day.

Bookings

We realise that your Wedding Day is very important and that you need transport that you can rely on to be prompt and punctual. When you book with Wedding Taxi's you can rest assured that all of our driver's and their Taxi's are hand selected to undertake this service and all are extremely reliable.

Here at Wedding Taxi's our aim is simple, that is we aim to give our customers the best possible service that we can.

From the time you book your Wedding Taxi with us to the date of your Wedding we take meticulous care over every aspect of your booking.

When we receive your initial enquiry we will post out a booking form to your home address. Once we receive your completed booking form along with your deposit the Taxi will be reserved for you for your Wedding.

We call all of our customers during the week before the Wedding to finalise and check all details and make any minor changes that may be necessary.

We price each booking individually based on the location and the length of time that the Taxi is required, so please call for a quote.
